SUMMARY

MCA post-graduated from University of Delhi having around 1 years of hands-on Software Development experience. Proven skills in developing robust applications and a strong passion for innovative technology solutions. Actively seeking new opportunities to contribute to dynamic development teams.

SKILLS

- **Frontend :** React js, HTML, CSS, Javascript, Axios, Redux
- **Backend :** Node js, Express, MongoDB
- **Programming Languages :** C ++
- **Other libraries & frameworks :** Material Ui, Tailwind CSS, Daisy Ui, Bootstrap
- **Backend-as-a-Service :** Firebase
- **Database :** SQL
- **Tools :** Git, Postman, Github, Bitbucket etc.
- **Deployments :** Netlify, Vercel, Render
- **Soft Skills:** Problem solving, Adaptability, Communication

EDUCATION

Master's of Computer Applications
Department of Computer Science , University of Delhi
📅 2022 - 2024   Marks : 7.45 CGPA

Bsc. Honours in Mathematics
Narasinha Dutt College , University of Calcutta
📅 2017 - 2020   Marks : 66.12 %

Higher Secondary School
Sri Ramkrishna Sikshalaya, Howrah
📅 2005 - 2017   Marks : 80.8 %

ACHIEVEMENTS

- Got Badges for maintaining over **50+ days streak** on **Leetcode** and solved over 150+ problems on **Leetcode** and **Codestudio**.
- Completed 2 Virtual **Web development workshops** of 4 weeks from CodSoft and Prodigy Infotech.

EXPERIENCE

Frontend Developer Intern   *October, 2024 - Current*
Company : **Milisync Solutions LLP**

1. ZVroX

Clients, Vendors, Employees, Leads, Invoice etc. management system built frontend with **React, Vite, Tailwind CSS**, featuring **Material-UI** for components and **Redux Toolkit** for state management. It ensures performance with tools like **SWR, React Router and Zod** for schema declaration and validation. **ESLint, and Prettier** are used for code quality and consistency.

Software Developer Intern   *Feb, 2024 - July, 2024*
Company : **Synopix**

Technical Skills: **React, Postman, MUI, AntD, Tailwind CSS, Bitbucket**

1. Krivitech

Developed and delivered a client's website within **3 weeks.**

2. Freight-Orbit

- Advanced **Admin dashboard** for Trading Businesses having **10+** pages for efficient data management of it's Vendors, Clients, Consols , Sales reports etc.
- Visually appealing Responsive UI having **5 interactive charts**, **20**+ custom components.

3. Pb-Orbit

- **Pickleball** sports community and event management software for reducing administrative overhead and seamless role based features.
- Designed the workflow, developed entire frontend having **12+** pages showcasing all the Player & HoaAdmin functionalities.
- Tested and Integrated **21 APIs** in **25+ reusable components.**

PROJECTS

1. TASTYEATS   *January, 2024 - July,2024*

Developed a comprehensive restaurant site using **MongoDB, ExpressJs, React js, Node, Tailwind CSS, DaisyUI, Email js** and **5+ React libraries.**

- Implemented user functionalities such as **Cart management, Favorite dishes**, **6 menu categories**, **Online food ordering, Stripe payment processing, Ratings & Feedback, Customer support.**
- Built a secured Admin panel for analysis through **3 charts**, **managing users, orders, and menu items** efficiently.
- Managed **100+ dishes** and **50+ orders.**
- Ensured secure handling of **15+ user** accounts with **JWT Token** Access and **Firebase** Authentication.
- Created **5 Models, 2 Middleware components, and 7 custom hooks** for optimized functionality.

2. RED BEAT   *July,2023 - August,2023*

React Fitness website offering exercise categories, Muscle group **filtering** over **1,300+ exercises** with **animated** examples, **pagination**, **Youtube video integration**, and **3+ similar exercise recommendations**.

- Advanced **React** Best Practices such as **file structure and hooks**
- Utilized **Material UI (version 5)** for stunning design and responsiveness
- Fetched data from **RapidAPI version 2 APIs**
